

FILTER PRL3 PUROLINE GB-PP-HF

PRL3.00U80.001-1

professional

A three-stage UPS-type filter based on three Puroline cartridges: GB, PP and HF. Combination of activated carbon, a mechanical filtration and ultrafiltration membrane, is a compact solution for the removal of chlorine and its derivatives as well as thorough removal of mechanical impurities from water.

Functions: Removes, chlorine and its derivatives. Reduces the level of mechanical impurities and selected chemical impurities of industrial and organic origin.
